You can choose them in the progression bar at the bottom of Skillrene. From the degrades that are improving performance, the following should be chosen: "competence of the devices", "Aimproved Aim", if you play in the melee choose "fatal punches", if you don't do it ", if you don't do it" play in the melee that You can decide if you want "Furious Poakwork" instead ". improved side damage "and" offensive mastery ". You will get all four tactical releases, you should choose " Hangar weapons ", " Critical design ". Furthermore, the maximum capacity Tactics "Frenzy focused" will be unlocked and all three improvements. Here is a suggestion for your land skill: unlock: some of them only allow you to create training manuals that others will improve the character's performance on the ground. "Frenzy focused on "It's a really strong skill. Make sure you choose them. Feel free to decide which training manuals you want to be able to create.
